

## Journey to the Stars with Unprecedented Clarity at CES 2025: Experience UNISTELLAR's New VIVID VISION Technology Firsthand

For nine years, UNISTELLAR has been redefining exploration through groundbreaking, award-winning innovations. This year at CES 2025 in Las Vegas, **join us under the iconic Vegas sky to discover the cosmos like never before, with Vivid Vision.**

### Exclusive Live Smart Telescope Demos

Enjoy and experience the celestial marvels brought to life by our new Vivid Vision technology and our ODYSSEY Pro smart telescope at two events:

- **Sunday, January 5, 5–8:30 PM:** Visit us at our booth during CES Unveiled, and we'll take you on a short 3-minute walk to our outdoor demo space.
- **Tuesday, January 7, 6–10 PM:** Meet us at the Grand Patio, Bellagio, just steps from the Grand Ballroom where ShowStoppers will be happening.

**Vivid Vision's powerful signal processing feature** unveils the authentic, vibrant colors of the cosmos in a way no other telescope on the market can, and its **advanced image enhancement system** captures your observations with the finesse of an expert astrophotographer.
